

To Our Valued Industry Partners:

ITW Thermal Films has been delivering quality thermal transfer ribbon products, value-added services, technologies and solutions to our customers for over 25 years. Our commitment to our channel partners and the global TTR marketplace has been our number one priority, and why we continue to implement innovative product solutions that allow us to better serve our customers.

The Right Products, The Right Partner

PAST, PRESENT and FUTURE, we remain 100% committed to providing you with TTR products and value-added services that help you work more efficiently and cost effectively. While we are global in scope, our decentralized structure allows us to maximize our operational efficiencies and apply the correct resources to support your needs on a local level.

Extreme Solutions™

We make it easier than ever for our customers to find thermal transfer ribbon solutions that are designed to meet a specific market sector's durability and functionality requirements with our **new** ITW Thermal Films Extreme Solutions™ program. Extreme Solutions™ supports a broad range of bar code printing applications and is only available from ITW Thermal Films.

About Us

ITW Thermal Films manufactures, converts, and distributes PrintheadSaver® thermal transfer ribbons (TTR) for bar coding and labeling applications to customers around the world. PrintheadSaver® thermal transfer ribbons for flat head technology printers are available in our standard resin enhanced wax grade, PrintheadSaver® Extreme Series Midrange™ (ESM™) wax/resin and Extreme Series Resin™ (ESR™) formulations for applications requiring a higher level of performance and versatility. For near edge or corner edge technology printers, our PrintheadSaver® Techno-Edge™ wax/resin and resin ribbons are designed to get the maximum efficiency out of near edge printheads, while providing you with the superior performance characteristics you need for abrasion and environmental resistance.
